SUMMARY

Frontend Developer with a year of experience building responsive, user-friendly web applications. Skilled in React, JavaScript, HTML, and CSS, with a strong focus on performance, accessibility, and clean design. Proven ability to turn complex UI/UX designs into scalable, maintainable code.

EXPERIENCE

Leaders Network Limited   **Front-end Developer**
Lagos, Nigeria   Sep 2024 till present

- Built responsive and user-friendly web applications using **React**, **Next.js**, **TypeScript**, and **Tailwind CSS** to create smooth and fast-loading websites.

- Developed reusable components in **React** to ensure easy maintenance and consistency across the site.

- Used **Next.js** for improved website performance, including faster loading times through features like **server-side rendering (SSR)** and **static site generation (SSG)**.

- Integrated **TypeScript** for better code organization and to catch errors early during development, making code more reliable and easier to maintain.

- Translated designs from **Figma** into fully functional web pages that are visually appealing and easy to use.

- Styled applications using **Tailwind CSS**, creating custom designs that are responsive across different screen sizes and devices.

- Focused on website performance and SEO, improving load times and ensuring search engines can properly index the site.

- Used **Git** and **GitHub** for version control, making collaboration and code management easier and more efficient.

- Worked on making websites accessible to everyone by following accessibility guidelines, such as providing proper keyboard navigation and screen reader support.

- Gained experience in **client-side routing**, data fetching, and state management using **React Hooks**, allowing for better user interactions and dynamic content.

- Published and deployed websites using platforms like **Netlify** and **Vercel**, ensuring they are always up and running smoothly.
